PROFESSIONAL SUMMARY

Dedicated and analytical 3rd-year Software Engineering student at Addis Ababa Science and Technology University with a strong foundation in C++, Python, Java, and web penetration testing. Passionate about secure software development, algorithmic problem-solving, and building robust technical projects. Highly motivated to apply practical programming skills and security concepts to impactful software engineering opportunities.

EDUCATION

Addis Ababa Science and Technology University (AASTU) **Addis Ababa, Ethiopia**
BSc in Software Engineering — 3rd Year

- **Key Focus Areas:** Data Structures & Algorithms (DSA), Object-Oriented Programming, Web Application Security, and Software Architecture.

PROJECTS

Threat Trail **GitHub**

- Developed a collaborative cybersecurity tracking tool to monitor digital footprints and manage source code efficiently using Git and GitHub.
- Implemented core logic for tracking security events and structured repository management for collaborative workflows.

EXTRACURRICULAR ACTIVITIES

Competitive Chess Player **Active**

- Actively play rapid chess on Chess.com, sharpening tactical calculation, pattern recognition, strategic foresight, and disciplined decision-making under time constraints.

Cybersecurity Labs & Practice **Self-Driven**

- Regularly engage in hands-on vulnerability assessments and web penetration testing exercises via platforms like PortSwigger and TryHackMe.

SKILLS

Technical Skills: C++, Python, Java, Web Penetration Testing, Git & GitHub, Linux, Data Structures & Algorithms

Soft Skills: Problem solving, fast learning, persistence and discipline, analytical thinking
